## Link4 Cloud Connectivity

PN: PIRR-A0-16T1

- 24/7 Alerts: Get instant notifications for protection and peace of mind
- Remote Programming: Cut onsite time and reduce labor costs
- Save/Restore Programs: Quickly switch settings for seasonal watering changes
- Role-Based Access: Support maintenance teams without losing system control
- Watering History: Track usage for audits and easy troubleshooting
- Built-In Notes: Log photos/videos for fast issue tracking and support
- Remote Support: Get expert help and training anytime from anywhere

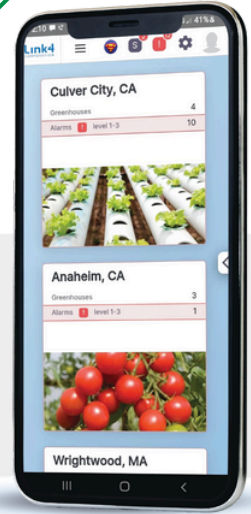

## MAKE GROWING EASIER

The HydroRoot 16 Irrigation Controller is designed to withstand tough greenhouse and outdoor environments.

- IP65-rated enclosure: Protects internal components from water, dust, and debris.
- Sunlight-readable LED display: High-contrast screen visible even in bright, outdoor light.
- 24VAC Power Supply: Uses 24VAC for stable, dependable operation (transformer provided separately for easy setup).
- Tactile mechanical switches: Physical buttons make setup easy with gloves, wet hands, or in muddy conditions.
- USB port: Save and restore watering programs in the field—no internet required.
- Ethernet port: Connects directly to Link4 Cloud for full remote control, alerts, and data tracking.

The HydroRoot 16 Irrigation Controller comes with setup drawings, videos, and guides + full remote support visibility for fast expert help from Link4, wherever you are.

*Many configurations available with WiFi and cellular.*

### Cloud Connectivity

More than just a hardware interface, our cloud is secure, industry-leading design offers real-time alarm management, full audit log, context-based multimedia grow journal, advanced graphing, task management, documentation tracking, user-controlled dashboard, advanced third-party access, context-sensitive help, and much more!
